R — Role	"Act as a [senior marketing strategist / expert copywriter / Python developer]..."
C — Context	"I am [your situation / company type / experience level]..."
T — Task	"Write / Analyse / Create / Summarise / Explain [specific deliverable]..."
F — Format	"Format the output as [bullet points / table / numbered list / email]..."
L — Length	"Keep it under [word count] / Make it [short/comprehensive/one-page]..."
